Completion of various infrastructure projects including water supply, sanitation projects, electricity and road network

Ownership policy and code of corporate governance developed for SOEs

Legislations amended to address emerging challenges faced by Botswana

170 government services launched online

Inflation down from 12.4% in December 2022 to 3.5% in December 2023

Highlights

BUDGET MESSAGE

Stimulate growth, create employment and focus on sectors with great potential to transform the lives of Batswana
#MyBudget #YourBudget #OurBudget

Substantial increase in allocations towards sport development (317%), creative arts (58.8%), research and development (280.9%) and infrastructure development (33.5%)

P20.82bn allocated towards 'Game-Changing Programmes and Projects of High-Value Strategic Investments'

Land parcels to be released to private investors and farmers to enhance agricultural production, access roads to production centres prioritised

Phase 2 of procurement of 'National Retail Payments Switch' will commence in April 2024

'Intellectual Property (IP) Motshelo Scheme' and 'Intellectual Property Ideas Incubation Centre' to be established to empower Batswana to own and protect their Intellectual Property assets

'Chema Cheema Fund' proposed to support the informal sector

536.5% budget increase for gender mainstreaming

Informal sector strategy to be reviewed and implemented in 2024 / 2025

Intention to increase rate of transition from fossil fuels to renewable energy by 2030

Electronic invoicing (e-billing) to be introduced for efficient VAT collection

'Temo Letlotlo' and 'Thuo Letlotlo' (to be launched in 2024/25) programmes to support farmers

BURS to fully implement solution to digitally mark and track excisable goods ('Track and Trace') by July 2024

Integrated digital Labour Market Information System (LMIS) to be developed to align labour market needs with education sector output

General Education Curriculum to be reviewed to support outcome-based education in line with the strategic plan

Free readymade electricity boxes to be provided to households which are not wired

New tourism sites to be made available to support tourism land ownership by citizens

To enhance international supply chain efficiency BURS, in collaboration with other key stakeholders in international trade, has commenced the implementation of a National Single Window

Petroleum storage and wastewater management projects to be implemented using the PPP model

Government to continue with the Meetings, Incentives, Conferences and Exhibitions (MICE) strategy aimed at positioning Botswana as a world class hosting hub

“Amidst tough conditions, it is commendable to see a bold increase in the Development Budget by 41%. Timely and effective implementation will be the litmus test to the theme - **Transformation Now and Prosperity Tomorrow.**”

Budget allocation 2024/25

Budget allocations – Focused on transformation of the economy and prosperity for Batswana

Government of Botswana's (GoB) recurrent budget of P 63.74 billion for 2024/25 is a 5.7% increase from 2023/24 budget.

Recurrent budget

- The largest allocation of the recurring budget is to the Ministry of Education and Skills Development. In the drive to transition the country to a knowledge-based economy, the allocation of P 15.54 billion represents 24.38% of the recurrent budget. Amongst other things, the proposed budget will be utilized to ensure the delivery of quality curriculum development needed to enhance the knowledge and capability skills of learners.
- Ministry of Defence and Security is allocated the second largest share at 16.7% of the total budget at P 10.65 billion, an increase of 8.4% from 2023/24 budget. Besides covering the operational costs for security agencies, the budget will also cater for costs for the newly established Drug Enforcement Agency to combat the use of drugs.
- Ministry of Local Government and Rural Development is allocated P 9.48 billion, an increase of 15.3% as compared to prior year, to assist in upgrading sub-districts into fully-fledged districts. The major budgetary provision goes towards Revenue Support Grants to district and urban councils, which accounts for 55% of the Ministry's proposed recurrent budget.
- The fourth largest share is allocated to the Ministry of Health with a proposed budget of P9.46 billion. The budget will enable acquisition of vaccines medicines and other necessary medical supplies.

Recurrent budget	BWP (bn)	%
Education and Skills Development	15.54	24.38%
Health	9.46	14.84%
Defence and Security	10.65	14.87%
Local Government and Rural Development	9.48	16.71%
Transport and Public Works	2.09	3.28%
Other ministries and departments	16.52	25.92%
Total	63.74	100%

- Transport and Public works
- Other ministries and departments
- Defence and Security
- Local Government and Rural Development
- Health
- Education and Skills Development

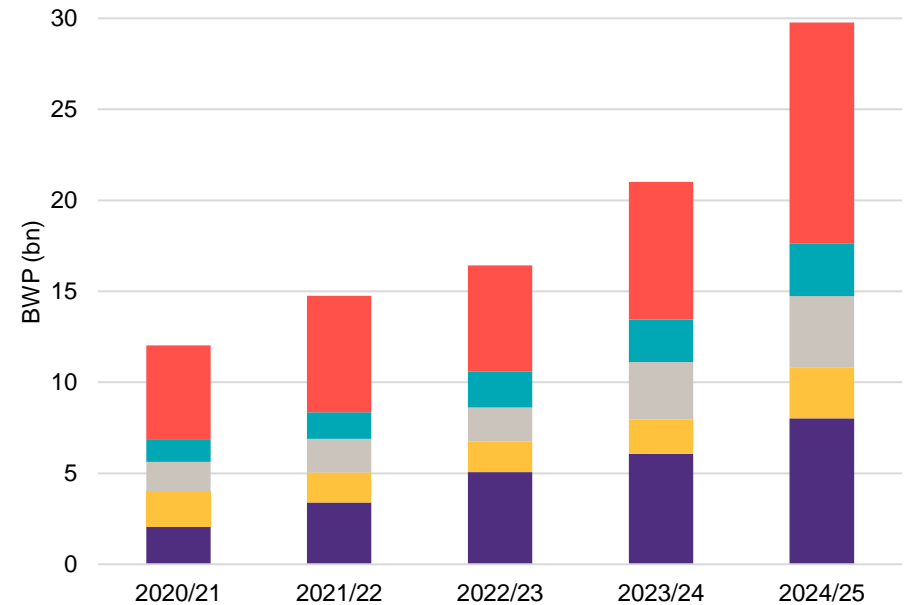

Budget allocation 2024/25

Budget allocations – Focused on transformation of the economy and prosperity for Botswana

Government of Botswana's (GoB) development budget of P 29.77 billion for 2024/25 is a 41.7% increase from 2023/24 budget.

Development budget

- Through this budget, the Government aims to propel the implementation of projects to unlock opportunities for sustainable jobs, improving the quality of life, reducing poverty, eliminating gross inequalities and ultimately achieve a high-income status.
- The largest share of P8.01 billion is allocated to the Ministry of Lands and Water Affairs. This represents 27% of the budget which is in line with 29% budget allocated in 2023/24. Water supply and sanitation projects continue to drive this budget allocation. Major projects include the completion of North South Carrier 2.2, Maun water and sanitation, Goodhope water supply scheme phase 2.2 as well as implementation on-going Molepolole wastewater treatment plant.
- The second largest share at 13% of the budget is for the Ministry of Transport and Public Works. The increased budget allocation will be focused on ongoing road infrastructure projects such as Traffic Signal Modernisation and Central Traffic Control for greater Gaborone. The allocation will also cover upcoming road projects including Mogoditshane - Gabane - Mmankodi Junction dualling.
- The third largest share of the budget of P2.89 billion (9.7%) is allocated to the Ministry of Local Government and Rural Development. This will be utilised to boost local government infrastructure, improve primary education services and implement social welfare programs which include Ipelegeng (the destitute program) and Remote Area Development Program.

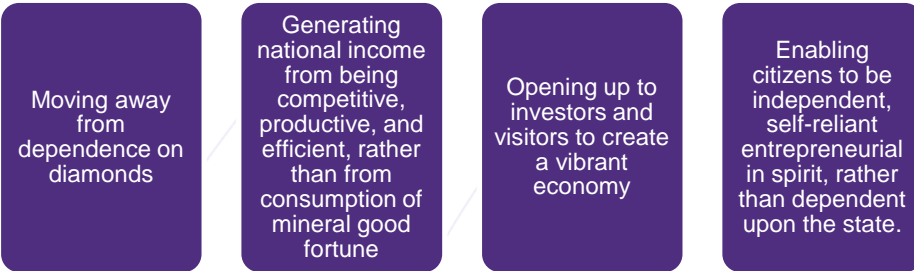

Development budget	BWP (bn)	%
Lands and Water Affairs	8.01	26.91%
Transport and Public Works	3.95	13.27%
Local Government and Rural Development	2.89	9.71%
Defence and Security	2.78	9.34%
Other ministries and departments	12.14	40.78%
Total	29.77	100%

Vision 2036 targets

Bold steps to address gaps

Four key changes required to achieve our Vision 2036 goals are:

Government of Botswana's forecast of 5.4% GDP growth in 2025, which is 1% higher than the International Monetary Fund (IMF) forecast, appears to be based on certain key initiatives and strategic investments to stimulate growth, attract investments and generate employment, including:

- Infrastructure development and spatial planning: P 17.09 billion.
- Programmes to achieve agricultural development and food security: P 2.82 billion.
- Research and development in areas like mining, agriculture, veterinary research, water, environment: P 1.02 billion.
- Drive innovation and implementation of Digital Transformation Strategy: P 1.83 billion.

Digital transformation

Embrace and act

The ever-changing environment and increased reliance on IT by companies across the globe has underscored the importance of robust and responsive IT services. In the current era of rapid digitalisation and technological advancement initiatives by governments, businesses face evolving challenges and opportunities, necessitating a proactive approach to enhancing IT infrastructure environment.

As companies embrace digital transformation, the demand for secure, scalable, and reliable IT solutions has never been more pronounced. Cybercriminals / hackers are more likely opportunists unless it is a targeted or sponsored attack. Globally, small businesses are often oblivious to cybersecurity threats due to their small size, and assume the Governments and medium and large-scale businesses are lucrative primary targets. These targets also have controls that make them exceptionally difficult.

Our comprehensive suite of IT services are designated to address the dynamic needs of digital transformation and help propel businesses forward. From adapting to the changing regulatory landscape to fortifying cybersecurity defences, we are committed to keeping IT at the forefront of technology. Let us navigate the complexities of the digital landscape, allowing businesses to focus on what matters most – the growth and success of business and contribute to Botswana's growth.

Join us on this transformative journey, and together, we can harness the power of IT to achieve your business goals.
